Contents Volume 138, 1998

Terminal Cretaceous warming event in the mid-latitude South Atlantic Ocean: evidence from poleward migration of *Contusotruncana contusa* (planktonic foraminifera) morphotypes
M. Kucera and B.A. Malmgren 1
Orbital forcing of freshwater input in the Zaire Fan area—clay mineral evidence from the last 200 kyr
F.X. Gingele, P.M. Müller and R.R. Schneider 17
Ordovician metre-scale cycles: implications for climate and eustatic fluctuations in the central Appalachians during a global greenhouse, non-glacial to glacial transition
M. Pope and J.F. Read 27
Evidence for the Early Oligocene formation of a proto-Subtropical Convergence from oxygen isotope records of New Zealand Paleogene brachiopods
N. Buening, S.J. Carlson, H.J. Spero and D.E. Lee 43
Evolutionary dynamics of Pragian Dacryoconarida (Lower Devonian, Tentaculitoidea): evidence from palaeontological data and $\delta^{13}C$ of marine carbonates from Czech Republic
S. Gessa and C. Lécuyer 69
Stratigraphical and palaeoenvironmental analysis of the Permian–Triassic transition in the Badia Valley (Southern Alps, Italy)
S. Cirilli, C.P. Radrizzani, M. Ponton and S. Radrizzani 85
Eustatic and palaeoenvironmental assessment of the mid-Cretaceous Bathurst Island Group of the Money Shoals Platform, northern Australia
R.A. Henderson 115
Dunes in southeastern Namibia: evidence for Holocene environmental changes in the southwestern Kalahari based on thermoluminescence data
W.D. Blümel, B. Eitel and A. Lang 139
Late Quaternary environmental changes in Hong Kong
R.B. Owen, R.J. Neller, R. Shaw and P.C.T. Cheung 151
Palynological evidence for vegetation cycles in a 1.5 million year pollen record from the Great Salt Lake, Utah, USA
O.K. Davis 175
Oceanic pollen transport and pollen:dinocyst ratios as markers of late Cenozoic sea level change and sediment transport
F.M.G. McCarthy and P.J. Mudie 187
Vegetational changes during the Holocene in Extra-Andean Patagonia, Santa Cruz Province, Argentina
M.V. Mancini 207
Sedimentary facies and environmental ichnology of a ?Permian playa-lake complex in western Argentina
G. Zhang, L.A. Buatois, M.G. Mángano and F.G. Aceñolaza 221
Periglacial sediments in an Eemian–Weichselian succession at Emmerlev Klev, southwestern Jutland, Denmark
H.H. Christiansen 245
Biomineralization in seeds: developmental trends in isotopic signatures of hackberry
A.H. Jahren, M.L. Gabel and R. Amundson 259
North American continental seasonality during the last millennium: high-resolution analysis of sagittal otoliths
W.P. Patterson 271
Early Cretaceous (pre-Aptian) ammonites of the Mediterranean Tethys: palaeoecology and palaeobiogeography
F. Cecca 305
